(c) what action the Government of India have taken to counteract such anti-India propaganda?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI A. A. RAHIM): (a) Dr. Jagjit Singh Chauhan was interviewed on B.B.C. Radio 4 in the programme "World at One" on June 12, 1984. In the course of the interview he stated that in the Sikh History anybody who had touched the Holy places had not been left alive, and within a few days there could be news that Mrs. Gandhi and her family had been beheaded. He also said that while he did not want any violence in Britain, "We shall have to continue this struggle back in the home, that is what we have to do and organise".

(b) Government of India condemn such inflammatory and highly objectionable utterances. Our views have been conveyed to the British Government through diplomatic channels in London as well as in New Delhi. The British Minister of State for Foreign Affairs has expressed regrets at this interview and described Dr. Chauhan's utterances as "most objectionable". The British Home Office is examining Dr. Chauhan's statements for possible violation of law. Government of India are watching the situation. A protest has also been lodged with the B.B.C.

(c) Our High Commission in London has been countering such objectionable propaganda by maintaining contacts with the Press and various individuals. We have also distributed video cassettes to various Indian associations and individuals which explain the rationale of Government action in Punjab and depict the correct situation.

Moratorium on testing and deployment of space weapons

@@1077. DR. LOKESH CHANDRA:
SHRIMATI USHA MALHOTRA:
DR. (SHRIMATI) NAJMA HEPTULLA:
SHRI P. N. SUKUL:

Will the PRIME MINISTER be pleased to state the initiative taken by the Government of India to work out multilateral agreement on a moratorium on testing and deployment of space weapons?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI A. A. RAHIM): The Government of India has been consistently working, in consultation and coordination with the governments of all the like-minded countries, at the international forums of the Conference on Disarmament (CD), the Committee on the Peaceful Uses of Outer Space (COPUOS) and the General Assembly of the United Nations, to ensure that the outer space is used exclusively for peaceful purposes. These joint efforts are *inter alia* aimed at preventing any militarisation of outer space and extension of an arms race into outer space, so that both the testing and deployment of space
